

Appointment: Olivier Reyre appointed Chief Technical Officer of the Vitaprotech Group

Vitaprotech Group is proud to announce the appointment of Mr. Olivier Reyre to the position of Chief Technical Officer (CTO), effective September 1, 2023. This strategic appointment is part of the company's ambitious development plan, aimed at consolidating its position in the global technological security market.

As Chief Technical Officer, Olivier Reyre will bring exceptional technical expertise to Vitaprotech. He will be responsible for leading the implementation of a global offering of innovative technological solutions within the Group, in close collaboration with Jean-François Galtier, newly appointed Chief Product Officer. Together, they will form a complementary management team determined to make Vitaprotech the essential choice for the security solutions of the future.

To achieve this, Olivier Reyre will:

- Unite the teams and optimize the skills of each member of staff so that they can be put to good use within the Group.
- Oversee the harmonization of design rules across all Group entities, thus guaranteeing the consistency and quality of Vitaprotech products and services.

In addition to his responsibilities as CTO, Olivier Reyre will also be in charge of the Group's research and development (R&D) alongside Jean-François Galtier. Their work will focus on three key areas:

- Cybersecurity: They will lead efforts to strengthen security systems, thus protecting our customers' sensitive data against emerging digital threats.
- SaaS development: they will oversee the growth and innovation of Vitaprotech's cloud services (SaaS), offering our customers flexible and scalable solutions.
- Artificial Intelligence: they will coordinate the integration of advanced technologies to anticipate and solve the most complex problems.

Trained as an engineer, Olivier Reyre joined TIL Technologies in 2005, holding various positions within the company before taking over as CEO in 2019, 5 years after its acquisition by Vitaprotech. In 2022 he was promoted to Director of the Group's Access Control Business Unit. Thanks to his experience and in-depth knowledge of the Group, Olivier Reyre will be an invaluable asset in meeting Vitaprotech's future challenges.

We wish him every success in carrying out his new duties.

Eric THORD
President of the Vitaprotech Group
